Provided screw: Truss head tapping screw 4x12 4 pcs

BACK SIDE OF CABINET DOOR

UNDER SIDE OF BOTTOM BOARD

FOR YOUR SAFETY AND CORRECT INSTALLATION

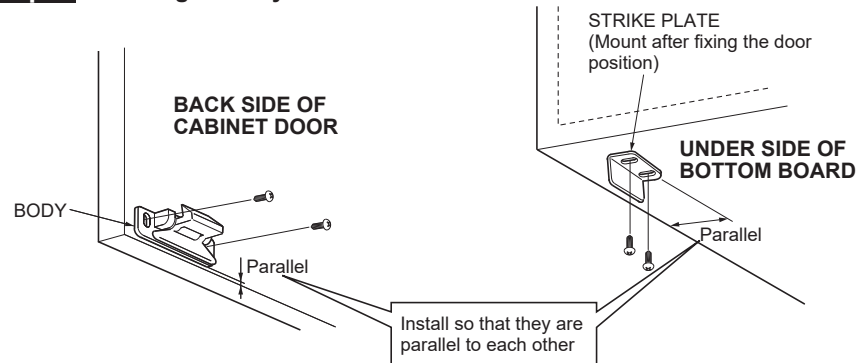

Meaning of symbols

- Warning Caution** If not followed, it may result in injury or damage.
- Prohibited** During an extremely strong earthquake, the doors may open unexpectedly. So do not contain heavy items in the cabinet.
- Required** In the long term use, the door may be warped or may sag, and cause the latch to malfunction. In this case, please re-adjust the position of the latch body and strike plate.

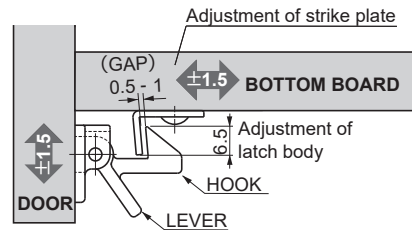

INSTALLATION

Step 1 Mounting of Body and Strike Plate

Step 2 Adjustment of Latch body and Strike plate

Adjust the position of the latch body and strike plate as shown below. After the adjustment tighten all of the screws.

To open the door, pull the lever.
